triolo-ads.vercel.app

Triolo Ads — Guide

Show your business to people near you on the Triolo apps' Home screen.

Book online, pay with UPI or card, and see your views and taps.

What's inside

1. How Triolo ads work

2. Book an ad

3. Review, results and refunds

4. Rules

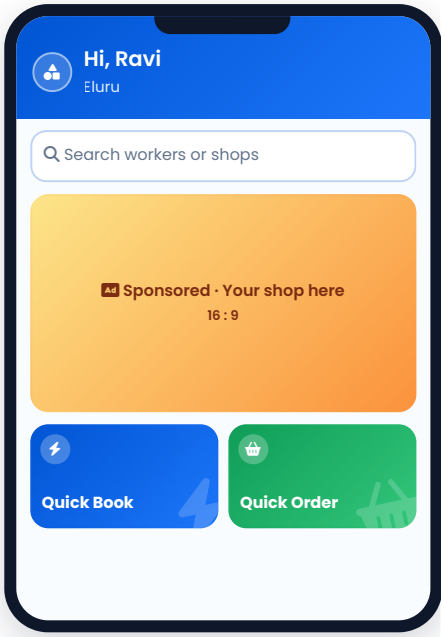

Ads appear in the Home slider of both apps for people without a plan. Only wide (16:9) pictures and videos are accepted.

1 How Triolo ads work

STEP 1

Where your ad shows

- A wide card at the top of the Home screen that slides between ads.
- Every running ad gets a fair share of views each day.
- An ad with "Directions" is shown only within 5 km of your place; others are shown everywhere.

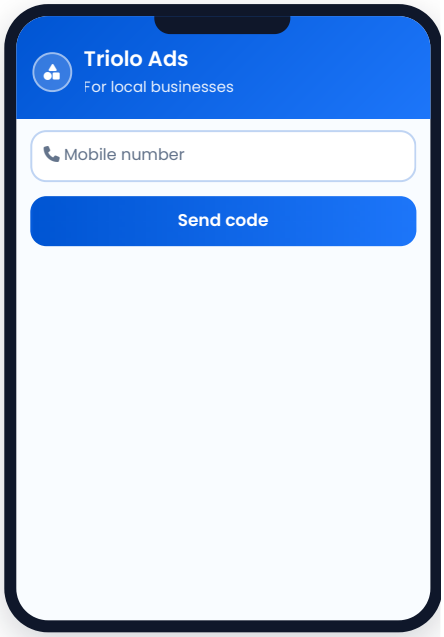

2 Book an ad

STEP 1

Sign in

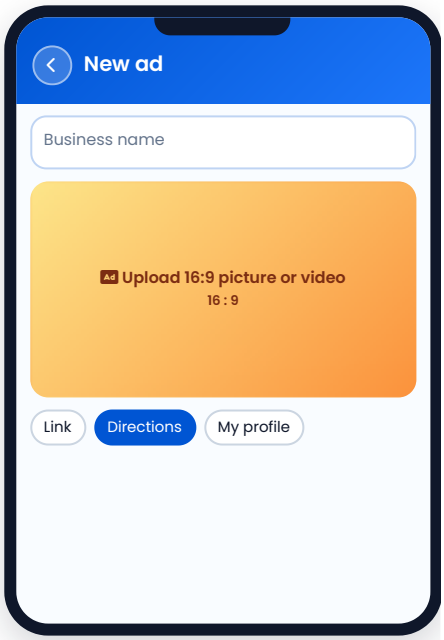

- Open triolo-ads.vercel.app on a phone or computer.
- Sign in with your mobile number and the SMS code.

STEP 2

Create the ad

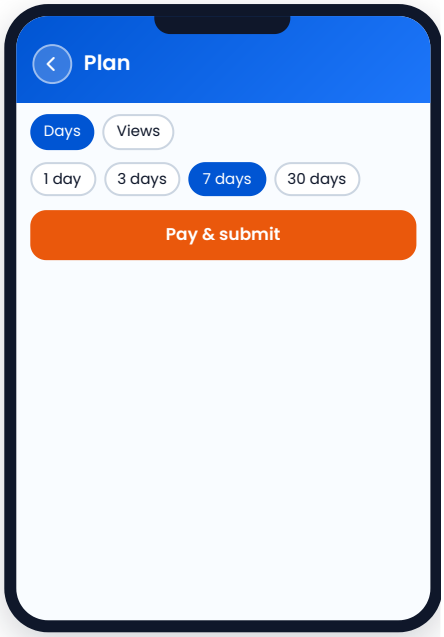

- Business name, a short title and text.
- One wide picture (16:9) or one wide video (up to about 30 seconds).
- When people tap: nothing, open a link, directions to your place, or open your Triolo profile.

STEP 3

Choose days or views, and pay

- By days (1, 3, 7, 30) or by views (500 to 10,000).
- Pay with UPI or card through Razorpay. The ad then waits for Triolo's review.

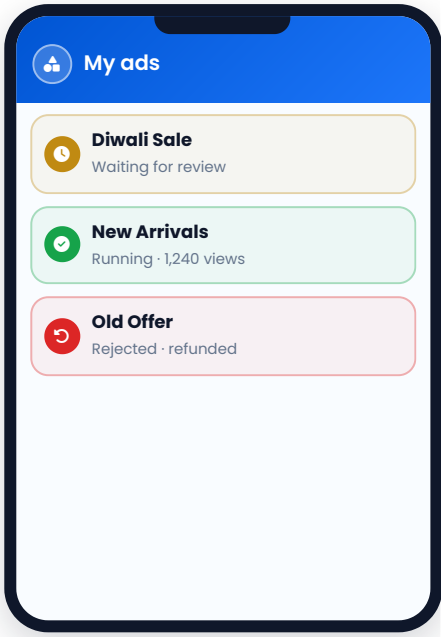

3 Review, results and refunds

STEP 1

Review

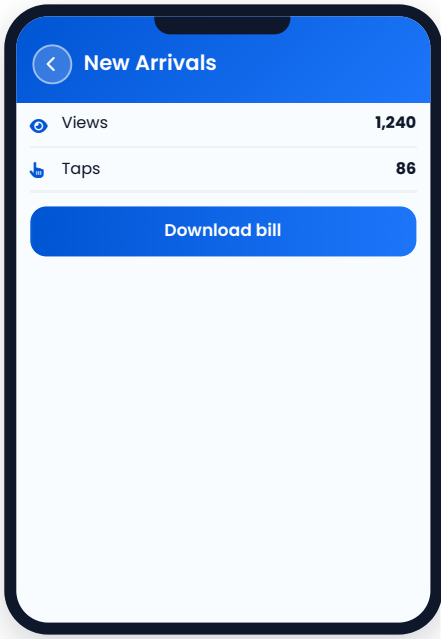

- Triolo checks every ad. Approved: it starts on its date. Rejected: you see the reason and your money is refunded automatically to the same UPI / card (5–7 working days).
- You can withdraw an ad before it is approved — refunded the same way.

STEP 2

Results

- Open an ad to see views and taps per day, and download its bill.
- Approved and running ads are not refunded. Ads removed for breaking the rules are not refunded.

4 Rules

STEP 1

What is not allowed

- Nothing false, illegal, adult, political, alcohol, tobacco, gambling or betting.
- No other people's photos or logos without permission.
- Your ad must match what you sell. Triolo may reject or remove ads that break these rules.
