Triolo app

Triolo — Customer Guide

Book a worker, order from a shop, post a problem or hire staff — near you, in English or Telugu.

This guide shows every step with a picture of the screen.

What's inside

1. Sign up and sign in

2. Quick Book — a worker in minutes

3. Book a particular worker

4. Post a Problem

5. Prepare a shopping list

6. Order from shops

7. Hire Staff

8. Your account

Tip: every screen has a back button at the top left. Location must be on for anything "near you".

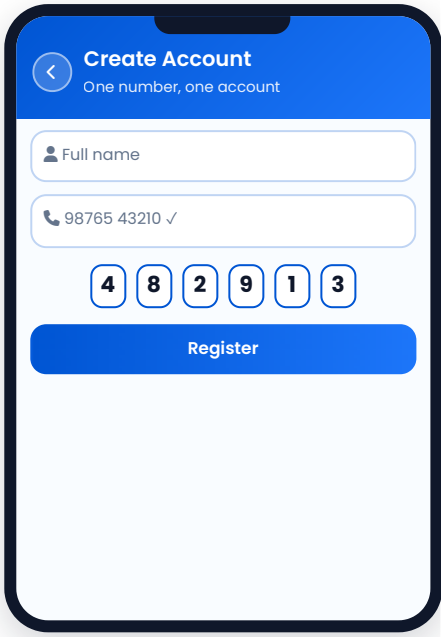

1 Sign up and sign in

STEP 1

Choose your language and create your account

- Open Triolo, pick English or తెలుగు.
- Tap Create Account, type your name and mobile number, tap Verify.
- Type the 6-digit code from the SMS. Add a photo, email and your place if you like, then Register.

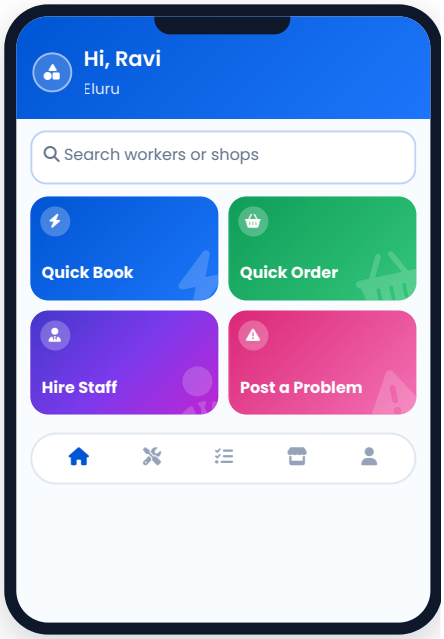

Already have an account? Tap Log In and use the same number.

STEP 2

Find your way around

- Home: search, quick actions (Quick Book, Quick Order, Hire Staff, Post a Problem) and offers.
- Services: workers near you by kind. Bazaar: shops near you. Prepare List: your shopping lists. Profile: your details and settings.

2 Quick Book — a worker in minutes

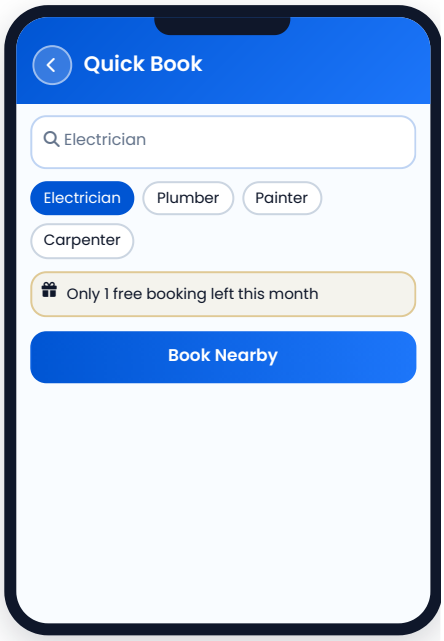

Your request goes to every matching worker near you. The first one to accept comes to you.

STEP 1

Choose the work and book

- Home → Quick Book. Pick one or more kinds of work (electrician, plumber…).
- Tap Book Nearby. Turn location on if asked.

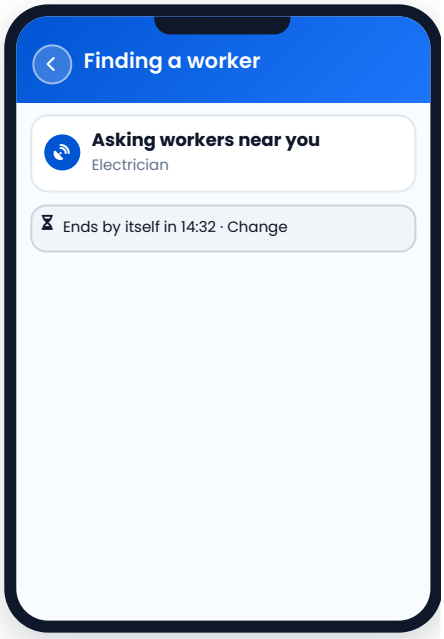

💡 Without Triolo Plus you get some free bookings each month, then a small fee per booking. The app tells you before you pay.

STEP 2

Wait for a worker

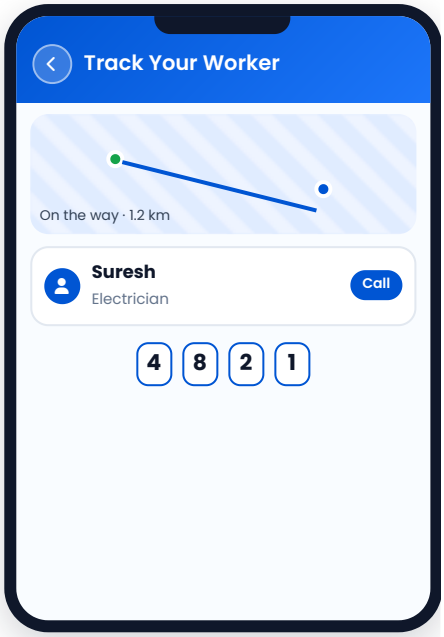

- The screen shows "Finding a worker" and how long it will wait.
- You can leave the app — you get a notification when someone accepts.

STEP 3

Track the worker and share the PIN

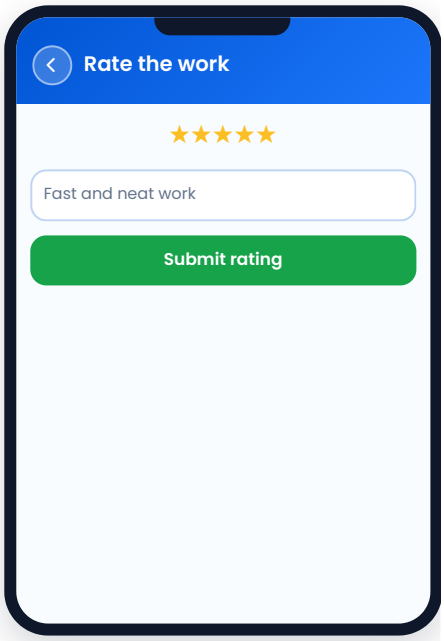

- When accepted you see the worker, their phone and live position on the map.
- When they arrive, give them the 4-digit PIN on your screen. Never share it before they arrive.

STEP 4

Finish and rate

- After the worker taps Work Done, tap Problem Solved and give stars and a review.
- Your rating helps everyone choose good workers.

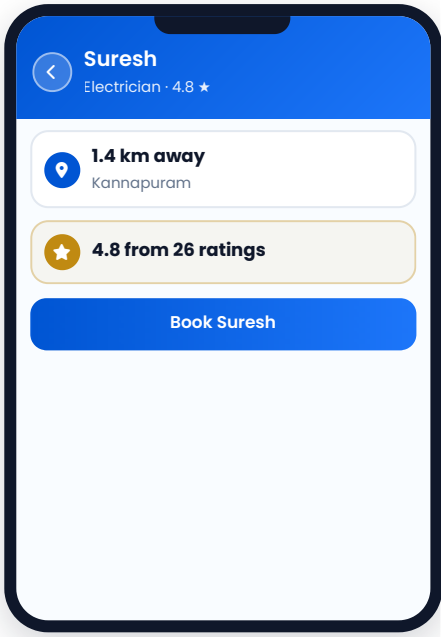

3 Book a particular worker

STEP 1

Open their profile and book

- Services or search → tap a worker → Book [name].
- Pick the work, confirm your place, and send. Only that worker gets it.

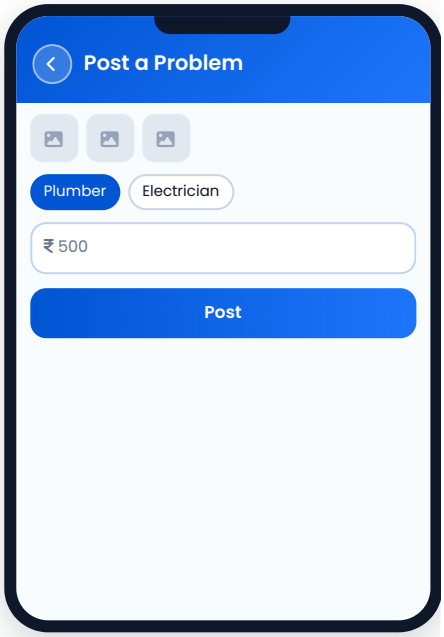

4 Post a Problem

STEP 1

Describe it and say your price

- Home → Post a Problem. Add photos, pick who you need, write a short note and your price (quotation).
- Choose the location, then Post. Workers nearby see it and one accepts — then it works like a booking with tracking and PIN.

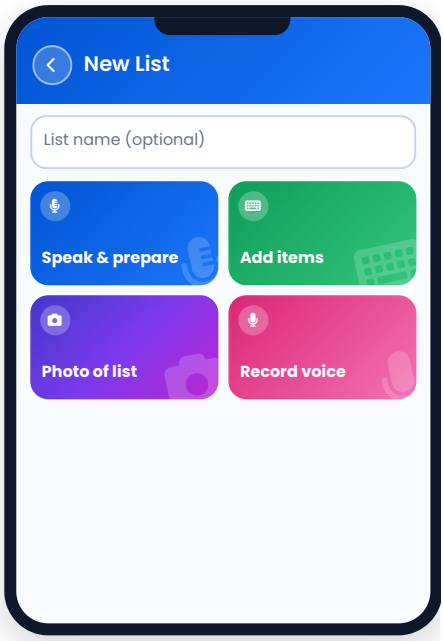

5 Prepare a shopping list

Make a list one of four ways. Once you choose a way, only that way stays on screen.

STEP 1

Pick how to make the list

- Prepare List → New List.
- Speak & prepare: say "rice 5 kg, oil 1 litre" and items appear.
- Add items: type them one by one.
- Photo of list: take a photo of a list written on paper.
- Record voice: just say what you want — the shop listens to it.

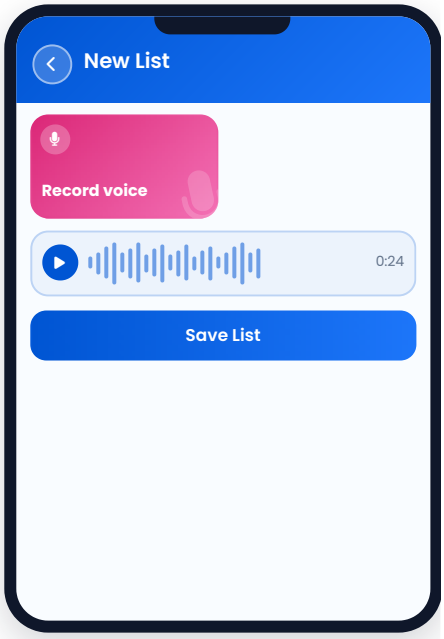

STEP 2

Record a voice list

- Tap Record voice, speak up to 3 minutes, tap the red stop button.
- Play it back, delete or Record again. Then Save List.

💡 A list with no name gets one like "Voice list · 2 Nov, 4:35 PM". Deleting everything from a saved list deletes the list.

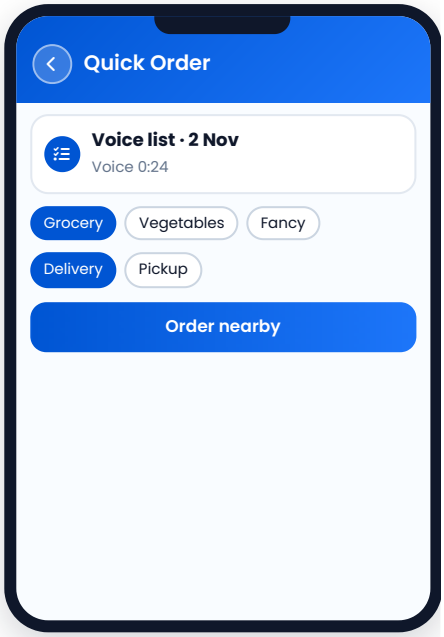

6 Order from shops

STEP 1

Quick Order or a particular shop

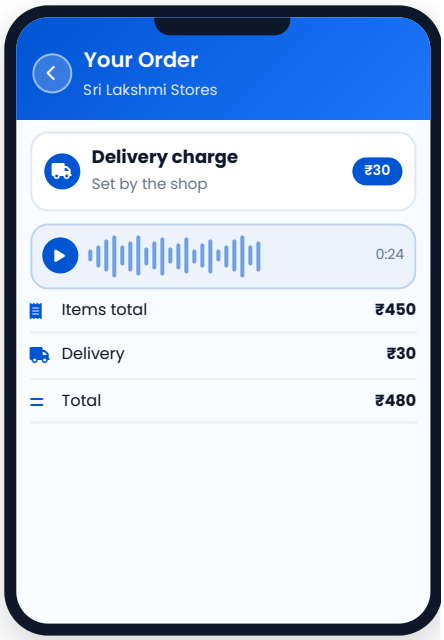

- Quick Order: choose your list, the kind of shop and Delivery or Pickup — every matching shop near you gets it, the first to accept packs it.
- Particular shop: Bazaar → tap a shop → Order from this shop.

STEP 2

See the delivery charge, then the bill

- As soon as a shop accepts a delivery order you see its delivery charge.
- The shop packs and sends the bill: items with prices (or one total), what is not available, any photos or voice message from the shop.
- Your own list (your recording or photos) is shown first, then the bill.

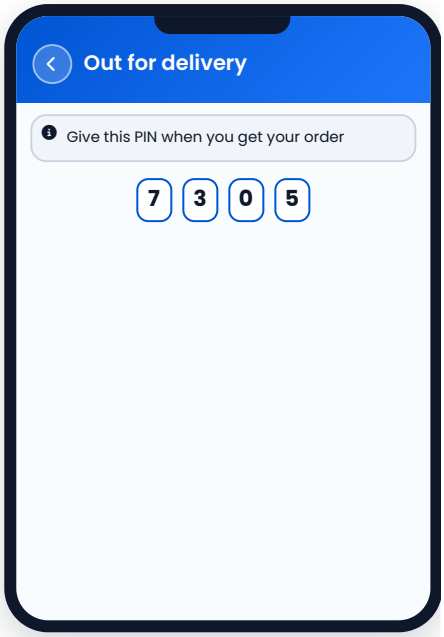

STEP 3

Collect with your PIN and rate

- When it is ready (or out for delivery) you get a 4-digit PIN. Give it when you receive the order and pay the shop directly.
- Rate the shop at the end.

Photos and voice messages of an order are removed 30 days after it ends, to protect your privacy. The order stays in your history.

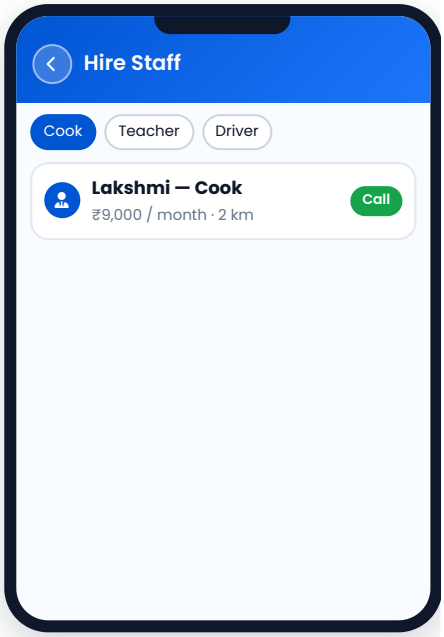

7 Hire Staff

STEP 1

Find a cook, teacher, driver…

- Home → Hire Staff. Filter by work, nearest or lowest pay, Trusted.
- Open a person to see pay, skills and experience, then Call.

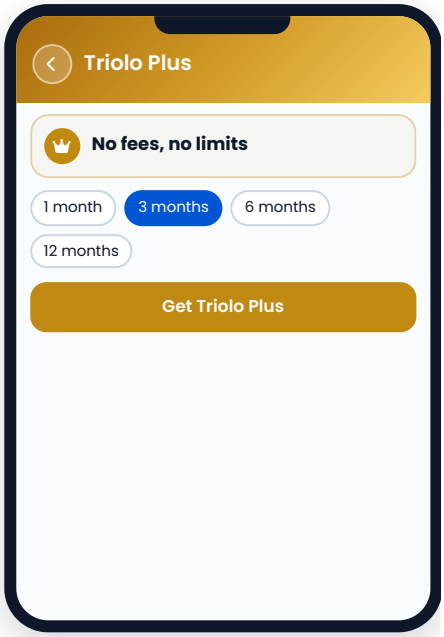

8 Your account

STEP 1

Plans, fees and free uses

- Without a plan you get free bookings and orders each month, then a small fee each.
- Triolo Plus removes the fees and ads. Profile → Triolo Plus.

STEP 2

Settings, privacy and deleting your account

- Profile menu: Edit profile, Waiting time, Language, Theme, Privacy Policy, Terms, Refund Policy.
- Delete account: cancels what is under way, deletes your profiles, photos and voice messages at once; your details are wiped after 30 days.
