Triolo Partner app

Triolo Partner — Guide

For workers, shops and people looking for a job.

Get requests near you, accept, do the work and get paid directly by the customer.

What's inside

1. Register

2. Jobs (workers)

3. Orders (shops)

4. Job posts (looking for a job)

5. Plans, badge and boost

Keep location and notifications on — requests reach you only when Triolo knows where you are.

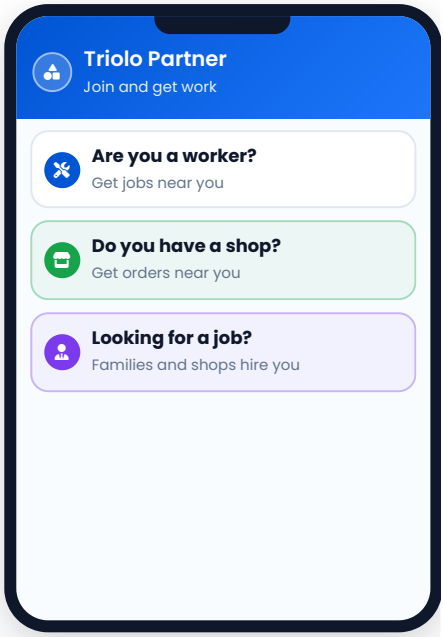

1 Register

STEP 1

Choose what you are

- Open Triolo Partner and pick: Are you a worker? · Do you have a shop? · Looking for a job?
- Fill the form: photo, name, mobile (verify with the SMS code), your work or shop kind, place on the map, photos.
- Tap Register. Workers and shops are checked by Triolo first (you see Pending, then Verified).

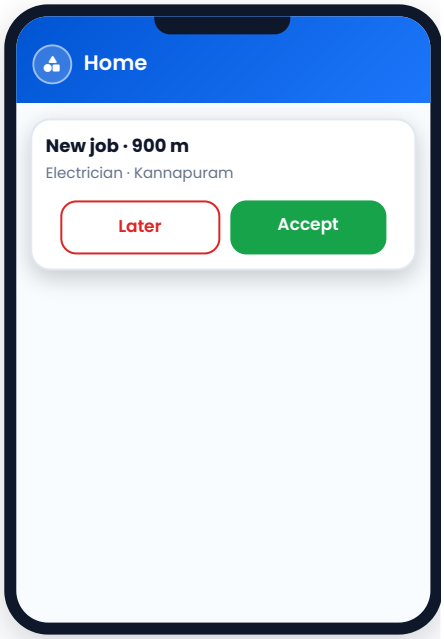

💡 One account can be a worker, own up to 5 shops and have several job posts.

STEP 2

Allow the pop-up

- On Home, allow "Display over other apps" and notifications. New requests then pop up even when you are in another app.

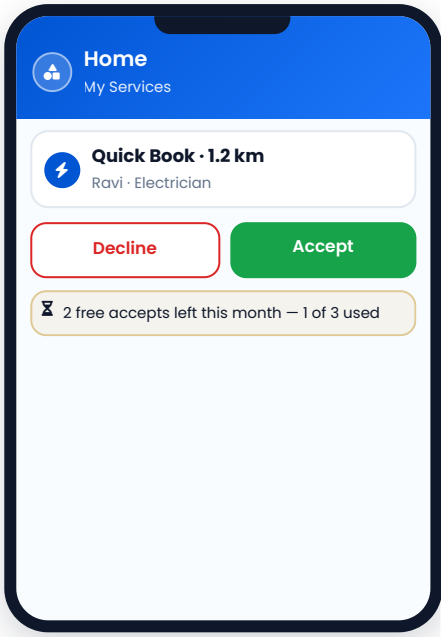

2 Jobs (workers)

STEP 1

Live Requests and Find Jobs Now

- New requests appear as cards on Home — swipe through them, Accept or Decline.
- Find Jobs Now pulls in every open request near you.
- Requests booked with you personally say "Booked you".

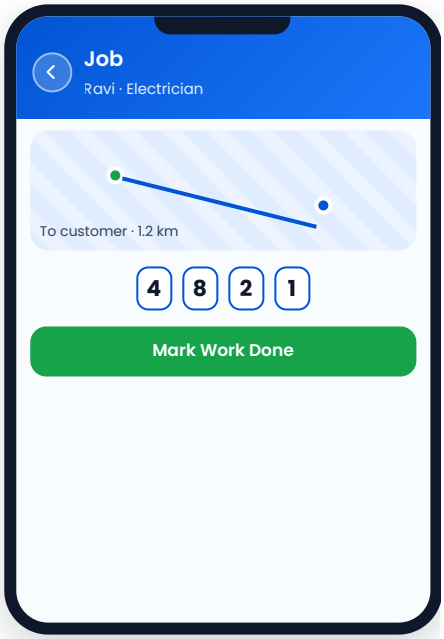

You get some free accepts each month. When they are used up, the button becomes "Subscribe to accept" — take the Service plan to keep accepting.

STEP 2

Go, arrive, start with the PIN

- Tap Start Trip — the customer sees you coming on the map.
- At the place tap Arrived, ask the customer for their 4-digit PIN and enter it.
- Do the work, tap Mark Work Done. The customer pays you directly.

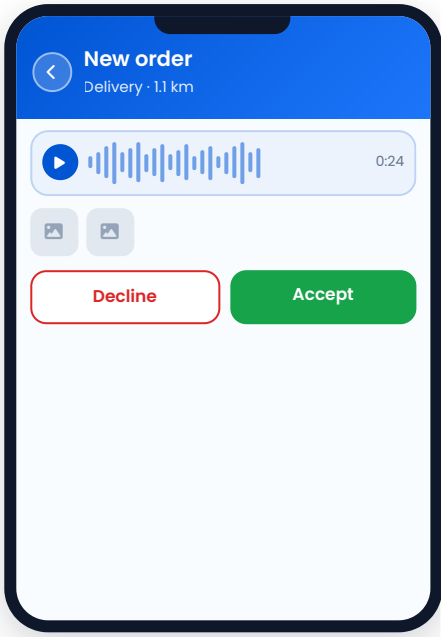

3 Orders (shops)

STEP 1

Accept and read the list

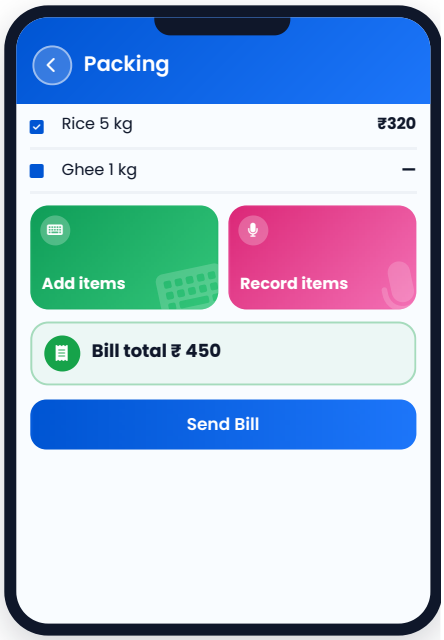

- A new order shows the customer's items, photos of their written list, or their voice message.
- Accept to start packing.

STEP 2

Pack and make the bill

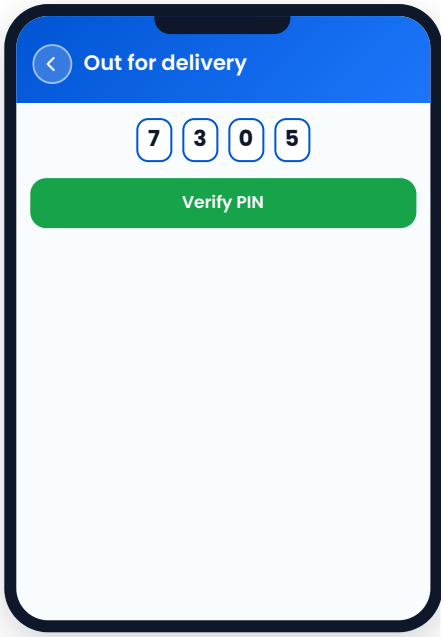

- Tick each item packed and type its price; untick what you don't have.
- Add to the bill one way: Add items (type), Record items (say them), Capture items (camera or gallery). Only the way you pick stays.
- With a photo or recording you can type one Bill total instead of every price.
- Tap Send Bill.

STEP 3

Hand over with the PIN

- Mark Ready for pickup, or Out for delivery (you or your delivery staff).
- At handover enter the customer's PIN and collect the money.

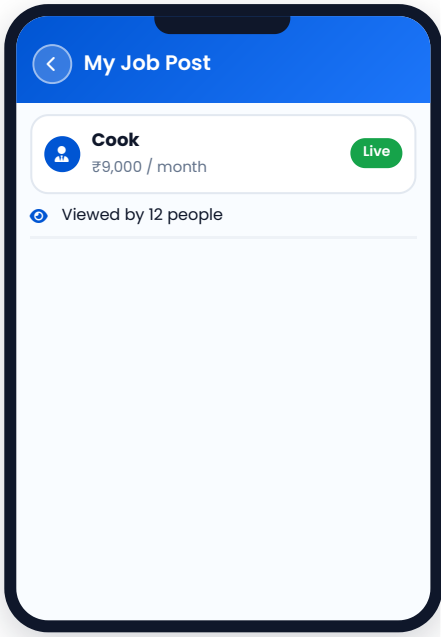

4 Job posts (looking for a job)

STEP 1

Post the work you want

- Pick the work (cook, teacher…), your pay per day or month, skills and experience.
- Switch Live / Hidden any time. Customers near you can call you.
- See who viewed your post.

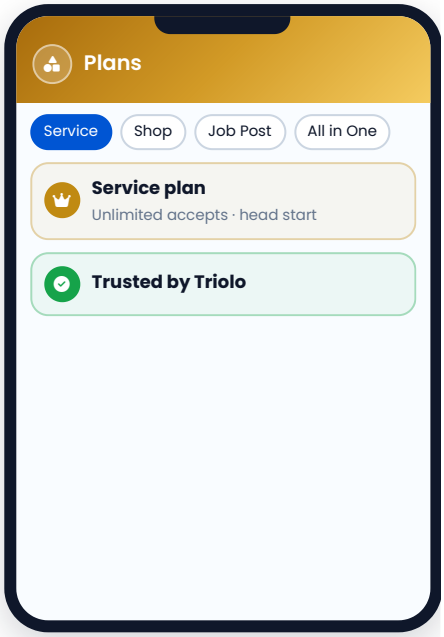

5 Plans, badge and boost

STEP 1

Grow with a plan

- Plans tab: Service, Shop, Job Post or All in One plan — no accept limits and a head start on new requests.
- Trusted by Triolo badge: customers see a green seal on your profile.
- Boost: show your profile in the Home slider (reviewed by Triolo; refunded if rejected).

STEP 2

Your account

- Menu: My Profiles (edit services, shops, job posts), Language, Theme, Privacy, Terms, Refunds, Delete account.
- Delete account removes your profiles, photos and voice messages at once and wipes your details after 30 days.
